Highlights

OptimalTEMP technology

"Now you can iron from jeans to silk with no temperature setting required. Guaranteed no burn on all ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust temperature 2) Compact ProVelocity steam engine delivers more steam for ironing faster. It enables compact design of your steam generator for easier storage"

Use demineralized water only

PerfectCare Pure is designed to be used only with demineralized or distilled water. Demineralized or distilled water prevent your appliance from scale damage, your appliance will deliver powerful and clean steam for very long. Tap water filtered by the Philips IronCare filtering jug works perfectly well. The product should not be used with tap water, perfumed water nor Brita filtered water.

Steam ready in 2 minutes

Steam is ready to use in 2min and can be refilled at anytime during ironing.

Max 5 bar pump pressure

The more steam, the faster the ironing. Consistent powerful steam is generated which penetrates deep inside the garments making ironing faster and better. Steam power can be regulated to fit your needs.

Safe rest

The Philips innovative OptimalTEMP technology guarantees no burn on all ironable fabrics. During ironing, no need to put your iron back to the base station, just leave the hot iron soleplate directly on the garments or cotton ironing board cover without additional resting accessory. It will not damage any of your ironable garments, neither the board. This makes your ironing easier with less wrist efforts.

Steam boost up to 180 g

The steam boost can be used for vertical steaming and tough creases.

T-ionicGlide soleplate

Our best gliding and most scratch resistant, 5star rated soleplate with integrated Titanium-Oxide layer
