Highlights

Coffee bean switcher

You can now change beans with only one click thanks to the patented exchangeable bean container. Enjoy the convenience of quickly changing the beans blend and find the perfect fit for every taste preference and moment of the day.

Saves your coffee settings

You will always get a perfect cup of espresso brewed just for you, according to your personal preference, thanks to our innovative memo function to adjust the coffee length, strength and temperature. Enjoy a superb coffee drink in your favorite cup with just the press of a button.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic cleaning.

Auto cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt when descaling is needed, the automated descaling process will start on your machine and guides you with clear on-screen messages when

you have to intervene. Descaling has never been so easy!

100% Ceramic grinders

Our grinders are made of high-tech ceramic: exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating: extracting all the best flavors and aroma, delivering a superior coffee taste for at least 20,000 cups.

5-steps adjustable grinders

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavor to unfold. So the grind granularity of this machine has five adjustable settings - from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.
