1x motor inlet filter

FC8074/01

Replacement kit for Performer Compact

Philips Original dust bags and filter replacements

Original replacement kit for the Philips Performer Compact range. The kit contains 3 dust bags, 1 air freshener and the motor and exhaust filters which need to be replaced once a year.

Philips Original accessories

- s-bag® Classic Long Performance original dust bags
- Super Clean Air filter with 99% filtration
- Motor inlet filter (foam)

Highlights

s-bag® Classic Long Performance

The kit contains 3 x s-bag® Classic Long Performance original dust bags. This original Philips dust bag has been developed to provide long lasting vacuum cleaner performance, i.e. a high performance level and maximum filtration, up to the moment the dust bag is full and ready for disposal.

Super Clean Air exhaust filter

The Super Clean Air filter captures the finest dust before the air is blown out of the vacuum cleaner, for a dust-free home and clean, healthy air. The filter should be replaced once a year.

Motor inlet filter

The kit contains 1 x motor inlet filter (foam). This filter prevents fine dust from reaching the motor and damaging it. The filter should be replaced once a year.

Specifications
