# Highlights

## safe and easy auto shut off

The automatic shut off function automatically switches off your steam generator iron if it has not been used for a few minutes. This saves energy and gives you peace of mind.

## Safety carry lock

Lock your iron securely to the base station for easy carrying around the house and to reduce the risk of accidentally touching the hot soleplate.

## Easy De-Calc Plus

Regular descaling protects your iron, extends its lifetime, and ensures the best steam performance. Our exclusive Easy De-Calc Plus system collects limescale continuously with an indicator light and audio signal to tell you when it needs emptying. Simply remove the plug and let the water and scale particles flow out.

## Intelligent automatic steam

Our DynamiQ smart sensor knows exactly when and how the iron is moving, delivering powerful steam where you need it most – for easier ironing and faster results.

## 1.8L detachable water tank

1.8-liter transparent tank gives you up to 2 hours of continuous use. When the water tank is empty, you will be reminded by the indicator light and you can refill easily at any time under the tap through the large filling door.

## light weight iron

The iron is amazingly light and comfortable to handle, gliding easily and reducing wrist strain. Its minimal weight also makes it easy and effective for vertical steaming of curtains and hanging clothes.

## No burns – guaranteed

Thanks to OptimalTEMP technology, we guarantee this iron will never cause burns to any ironable fabric. You can even leave it resting face down on your clothes or ironing board. No burns, no shine. Guaranteed.

## No temperature setting needed

Iron everything from jeans to silk without adjusting the temperature. Thanks to OptimalTEMP, no dial or settings are needed. So there's no more pre-sorting the laundry, or waiting for the iron to heat up and cool down. You're ready for any fabric, anytime
