Jamie's Tools

"For me, it's about encouraging more people to enjoy cooking and to feel as comfortable and confident as possible using this kit. And, ultimately, I set out to design a range that I would be genuinely happy to have and use in my own kitchen. Every piece of kit from the Jamie's Tools range by Philips Jamie Oliver has a splash of lovely cornflower blue, the color I chose to match the clean retro shapes we've used. This stuff is meant to be shown off, not hidden away in cupboards."

Chopper attachment

This compact chopper stands sturdy on any kitchen counter and is useful when chopping smaller quantities of onions, herbs or cheese. Homemade pestos and salsas are also really simple to make and add a completely fresh touch to your meals. After use, the knife and chopper detach easily for cleaning in the dishwasher. The top connecting lid can be wiped clean and should not be put in the dishwasher.
