# Highlights

## Excellent and healthy results

Thanks to the Rapid air technology, you can make healthy snacks because you cook them with little or no oil.

## Ideal for delicate dishes

The cover enables you to cook more delicate dishes with lightweight ingredients that without the lid would fly out of the basket due to the high-speed airflow of the Airfryer. Also, the cover prevents spattering, ideal for marinated food and more fatty ingredients.

## Even browning

The Snack cover is ideal for recipes with a longer cooking time, like cheesecake and bread – it slows down browning on the top, while the inside bakes to perfection.

## Tasty and Versatile

With the Snack cover, you will be able to use your Airfryer even more often. Make your own healthy snacks like chips, tortillas and dehydrated fruits. And bake your cakes and bread to perfection.

## Only little cleaning effort

Dishwasher safe for your convenience.
