2300 Watts

GC2045/80

Fast, from start to finish

5 ways to speed up your ironing

This EasySpeed Plus iron speeds up your ironing thanks to: triple precision tip, even heat distribution across the soleplate, continuous steam, shot of steam and high power.

Comfortable ironing

- Drip-stop system keeps your garments spotless while ironing
- Even steam distribution for efficient ironing
- Triple precision tip for optimal control and visibility

Longer lifetime

- Calc clean slider to easily remove scale out of your iron

Safe ironing

- Robust heel rest for improved stability

Easily removes creases

- Continuous steam output up to 40 g/min
- Vertical steam for crease removal in hanging fabrics
- Ceramic soleplate for better gliding performance
- Power up to 2300 W enabling constant high steam output
- Steam boost up to 140 g

Highlights

Power up to 2300 W

Power up to 2300 W enables constant high steam output.

Ceramic soleplate

Ceramic soleplate is scratch-resistant, glides well and is easy to clean.

Vertical steam

This Philips iron has a vertical steam function, for crease removal in hanging fabrics.

Calc clean slider

This steam iron can be operated with normal tap water, and the calc clean slider makes it easy to remove any built-up scale from your

iron. To maintain the performance of your Philips steam iron, you should use this scale clean function once a month when using normal tap water.

Robust heel rest

This iron features a specially designed extra-large heel rest, which gives extra stability when it is put in a vertical position.

Drip stop system

Drip-Stop system lets you iron delicate fabrics at low temperatures without having to worry about stains from water droplets.

Triple precision tip

The tip of this Philips iron is precise in 3 ways: it has a pointed tip, button groove and a sleek nose design. The triple precision tip enables you to reach even the most tricky areas, e.g. around the buttons or between the pleats.

Even steam distribution

Thanks to the carefully crafted soleplate design, the steam is distributed evenly across the soleplate. This way you need fewer strokes to evenly moisten the garment and therefore less time to complete the ironing.

Steam boost up to 140 g

Steam boost up to 140 g for fast removal of even the most stubborn creases.

Up to 40 g/min of steam

The Philips steam iron with continuous steam output of up to 40 g/min gives you the perfect amount of steam to efficiently remove all creases.
