English **Important**

Read this important information leaflet carefully before you use the rice cooker and save it for future reference

. The appliance must not be immersed

Danger

Warning . This appliance is not intended for use by persons (including

children) with reduced

physical sensory or

mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play

with the appliance. · This appliance should be positioned in a stable situation with the handles (if any) positioned to avoid spillage of the hot liquids.

This appliance is intended to be used in household and similar applications such as:

- staff kitchen areas in shops, offices and other working environments;
- farm houses;
- · by clients in hotels, motels and other residential type environments; bed and breakfast type
- environments. Make sure that the damaged power cord is replaced by Philips, a service center authorized by Philips or similarly qualified persons in order to avoid a hazard.

. The appliance is not intended to be operated by means of an external timer or a separate remotecontrol system. Surface of the heating element is subject to residual heat after use. · WARNING: Make sure to avoid spillage on the power connector to avoid a potential hazard.

· WARNING: Always

properly to avoid

Do not plug in the

plug in the power outlet.

Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid. Do not expose the appliance to high temperatures, nor place it on a working or still hot stove or cooker. Do not expose the appliance to direct sunlight. Place the appliance on a stable, horizontal, and

level surface. Always put the inner pot in the appliance before you put the plug in the power outlet and switch it on.

Do not place the inner pot directly over an open fire to cook rice. Do not use the inner pot if it is deformed.

6 Congee and Soup 粥湯

Warm/Off

Congee

Soup

· The accessible surfaces may become hot when the appliance is operating. Take extra caution when touching the appliance. Beware of hot steam coming out of the steam vent during cooking or out of the appliance when you open the lid. Keep hands and face away from the appliance to avoid the steam.

Do not lift and move the appliance while it is operating.

Do not exceed the maximum water level indicated in the inner pot to prevent overflow which might cause potential hazard. Do not place the cooking utensils inside the pot while cooking, keeping warm or

reheating rice. Only use the cooking utensils provided. Avoid using sharp utensils. To avoid scratches, it

is not recommended to cook ingredients with crustaceans and shellfish. Remove the hard shells before cooking.

Do not insert metallic obiects or alien substances into the steam vent.

Do not place a magnetic substance on the lid. Do not use the appliance near a magnetic

substance. Always let the appliance cool down before you clean or move it. Always clean the

appliance after use. Do not clean the appliance in a dishwasher. Always unplug the

appliance if not used for a longer period. If the appliance is used improperly or for professional or semiprofessional purposes, or if it is not used according to the instructions in this user

manual, the guarantee

Philips refuses liability

becomes invalid and

for any damage caused. Electromagnetic fields (EMF) This Philips appliance complies with all applicable standards and regulations regarding exposure to electromagnetic fields.
