- Cup holder

**GAGGIA**  
MILANO

## HIGHLIGHTS

### Classic milk frother

The classic milk frother on this Gaggia Espresso machine, traditionally called "Panarello", turns milk into gorgeous milk froth within seconds for a Cappuccino, a Latte Macchiato or more. It also delivers hot water for tea.

### Pressurized filter holder

The pressurized filter holder on your Gaggia machine will create an Espresso with the perfect Crema.

### Solenoid valve

When switching off your Gaggia Espresso machine, the solenoid valve releases the water

pressure completely, allowing the used coffee puck to dry. This ensures easier cleaning after preparing an Espresso.

### Coffee pods compatible

Our Gaggia manual machines come with a coffee filter for 1 or 2 cups of ground coffee, and a special filter for so called ESE (easy serve Espresso) pods. These ESE pods are perfectly portioned and make it easier to operate a manual Espresso machine.

### Professional filter holder

The heavy filter holder on your machine is made from chromed brass and also used on all professional Gaggia Espresso machines. Only the professional filter holder will give you consistent coffee temperature and the real Barista experience.

### 2 "perfect crema" coffee filter

2 "perfect crema" coffee filter for ground coffee and pods

### 15 bar pump

High pressure ensures that the ground coffee entire aroma is always fully extracted

### Cup holder

With this practical feature you can store your espresso cups and glasses right on the espresso machine - always within reach and conveniently stored without taking up space.
