Highlights

100% chemical free cleaning

Philips MultiSteam uses only water, it does not leave any kind of residues on your surfaces.

Removes germs and bacteria

Kills up to
99.9%
of bacteria

Enjoy hygienic cleaning results with Philips MultiSteam. The MultiSteam kills up to 99,9% of germs and bacteria located on the surfaces without chemicals and only the use of water.

Washable microfiber pads

2 washable and durable microfiber pads are included. The soft microfiber material gently loosens, lifts, and absorbs dust and dirt. Removing dirt effectively and gently. The microfiber pads are machine-washable and easy to attach and remove.

Easy to use

The MultiSteam is small and compact, easy to store and always at hand. It is lightweight and makes even longer cleaning sessions less tiresome.

Indicates when ready to use

The indication light turns white when is heating up, and the blue light starts blinking when the appliance is ready to steam. SteamCleaner Multi is ready to use in less than 45 sec delivering you continuous steam throughout the cleaning process.

Super absorbent microfiber pad

The microfiber pads are specially designed to lift and absorb all dirt and dust from the surfaces while you are steaming, for one-step cleaning without effort.

Cleans even the toughest dirt

Steam at high temperature easily dissolves grease and dirt. Steam is known as a powerful method to loosen all kinds of stains and dirt.

Maximum reach

Clean smooth surfaces with the triangular steam nozzle and the attached microfiber pad. In one stroke you remove dirt and stains. Thanks to its triangular shape you can both clean surfaces as well as reach into corners with the pointed tip.

Precision nozzle for corners

The precision steam nozzle is specially designed with a unique shape to reach into those tight and hard-to-reach areas where you cannot reach with traditional tools, such as ventilation hoods.
