Highlights

Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!

Extra long ergonomic grip

This ergonomically shaped grip is convenient in use. Its extra long design gives you farther reach, so you can easily clean hard to reach places.

4L dust capacity

The specially designed 4L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

EPA 10 AirSeal

EPA 10 Filter and AirSeal capture the finest dust before the air is blown out for a dust-free environment and clean, healthy air.

S-bag Classic Long Performance

This new Philips synthetic dust bag has been developed to provide long lasting vacuum cleaner performance, i.e. a high level of suction power and maximum filtration, up to the moment the dust bag is full and ready for disposal.

Mini Turbo Brush

The Mini Turbo Brush quickly removes (animal) hairs, fluff, and dust from couches, cushions, and other fabrics. This brush is ideal for pet owners.
