### Highlights

#### **Smoke-free grilling**

Excess grease and food particles are drained through slots in the grilling plate. They are absorbed by water in the removable tray, which prevents them from burning and causing smoke.

#### Integrated heating element

Heating element is integrated in the grilling plate, which guarantees instant and evenly distributed heat directly to your food. For tasty and evenly grilled results.

#### **Grill and flat surface**

Prepare a wide variety of food on either the grill or the flat surface. The grill surface will give you that tasty and nice-looking grill effect. The flat surface is very suitable for grilling smaller pieces of food and/or for stir-frying. Cook any way you like!

#### **Detachable splatter guard**

Splatter guard protects your countertop from possible grease

#### Extra-large grilling surface
