Let's make things better.

PHILIPS

HD 3272

COMPACT UPRIGHT FAN HEATER

A compact and powerful fan heater, offering the best in safety, heating performance, low noise level and ease of use. The eye-catching design, selling itself on the shelf, has been tested and optimized to radiate all the above aspects. Safety level is according the latest European standards, with overheating protection, stable design, double insulation and self extinguishing material. The basic featuring, combined with the attractive design, makes the product a strong offer for the economy segment. A thermostat and pilot light ensure ease of use of the product. Design, colour scheme and graphics are in line with all new Philips Air Treatment products.

Voltage/frequency	: 230 V / 50 Hz
Cordset	: Euro-plug standard length 1.80 m
Power consumption	: 1000 – 2000 W
Rotary speed switch	: 3 positions cool – 1000 – 2000 W
Rotary thermostat switch	: including frost protection
Overheating protection	: manual thermal cut out fuse (reset by unplugging)

PACKAGING

Dimensions (w x d x h):	
• Product	: 23 x 13 x 26.5 cm
• F-box	: 24 x 16 x 29 cm
• A-box	: 53 x 35 x 31 cm (4 pcs)
Weight:	
• Product	: 1420 g
• F-box	: 250 g
• A-box	: 730 g
Pallet quantity	: 36 A-box = 144 pcs

CTV	: 8823 272 00000
EAN I	: 87 10103 073581
EAN II (A-box)	: 87 10103 073680
