Your personal brew, tailored to you

Easily personalize your coffee with taste presets

Intuitively personalize aromatic coffees like Cappuccino and Latte Macchiato with preset taste profiles via the CoffeeMaestro menu and enjoy silky milk froth from our external milk carafe - even when making two milk drinks at the same time.

Personalized Variety

- 16 world-famous beverages with the touch of a button
- 3 taste presets with CoffeeMaestro
- LatteDuo: prepare and enjoy double servings of any variety
- Change your coffee settings with the Coffee Equalizer™
- 6 profiles: Simply, store your personal taste preferences

High Quality Coffee & Technology

- 20,000 cups of finest coffee with durable ceramic grinders
- Optimally-balanced temperature and aroma via Aroma Extract
- DoubleShot setting to boost your drink's intensity
- LattePerfetto for dense milk foam with a fine texture
- Large sealed bean container to keep your beans fresh

Convenient Experience & Maintenance

- HygieSteam: automatically removes 99.99% of microorganisms*
- Up to 5000 cups** without descaling thanks to AquaClean

Highlights

16 World Famous Beverages

Explore the world of coffee, from familiar recipes such as Espresso and Cappuccino to specialty coffee drinks like Italian Espresso Macchiato.

CoffeeMaestro

Personalize your coffee experience by selecting a desired taste profile (Delicato, Intenso, Forte) for your beverage. The coffeemaker automatically adjusts the brewing settings like strength, coffee volume and pre-wetting time, to serve you the right taste.

Automatic Cleaning* HygieSteam

Our innovative automatic cleaning system, HygieSteam, removes 99.99% of microorganisms* with one touch.

100% Ceramic Grinders

Our grinders are made of high-tech ceramic: they're exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating. All of the best flavors and aroma are extracted, for 20,000 cups or more of delectable coffee. Easily adjust the grinder with 12 settings.

AquaClean Water Filter

AquaClean is our patented water filter, designed to improve the quality of your coffee by purifying water. It also prevents scale buildup in the water circuit of your coffee machine. Make up to 5000** cups without descaling by replacing the filter regularly.

LatteDuo

Prepare and enjoy single or double servings of any coffee recipe with one touch, including Cappuccino or Latte Macchiato.

Coffee Equalizer™

Get interactive guidance for unlimited personalization, with our Coffee Equalizer™. Craft your coffee the way you prefer by customizing the strength, coffee and milk volume, temperature, milk foam density and add an ExtraShot.

Aroma Extract

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction. It does this by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

DoubleShot function

Boost your drink's intensity with the DoubleShot setting via the Coffee Equalizer or the Forte taste profile on the CoffeeMaestro menu. Two ways to add powerful flavor without the bitterness.

Specifications

Accessories

- Included: Measuring scoop, Water hardness test strip, Grease Tube, Milk container, Milk Tube, AquaClean filter

Country of origin

- Designed in: Italy
- Made in: Romania

Finishing

- Material of main body: Plastic

General specifications

- Milk Solution: Latte Perfetto technology
