

PHILIPS

Reconnaissance
PV .018 OTW

Digital IVUS catheter

See clearly.
Treat optimally.
The only .018 over-the-wire IVUS catheter

Catheters in demo kit are not for human use

Philips now has the complete .018 portfolio with rapid exchange and over-the-wire platforms

Outstanding deliverability¹

Enhanced catheter components tip to tail, longer working length, and improved lubricity through hydrophilic coating.

Improved workflow

5F sheath compatible OTW platform enables fluid infusion, guidewire exchange, and pedal access.

Enhanced image durability¹

Newly-designed scanner support protects the transducer during tortuous maneuvers to allow for improved image durability during cases compared to PV .018 RX.
