## Powerful MiniVac for a better cleaning result

Bagless cyclonic airflow and aerodynamic nozzle

Enjoy a better cleaning result with the powerful Philips MiniVac Lithium 10.8 V. The bagless cyclonic airflow and 2-stage filtration system guarantee lasting performance, while the aerodynamic nozzle design ensures a superior dust pick-up.

### Environmentally friendly

- Green Lithium-Ion technology

### Optimal filtration

- 2-stage bagless cyclonic airflow for optimal filtration

### Easy to use

- One-step click-off nozzle for easy emptying

### Guaranteed

- Longer-lasting lightweight Lithium-Ion batteries
- Quick charge in 8 hours

### Superior cleaning results

- Aerodynamic nozzle design for a better dust pick-up

## Highlights

### Green Lithium-Ion technology

Lithium-Ion batteries are really green batteries. They do not have toxic elements, which makes them better for the environment. Next to that, they do not discharge when the product is not in use and they guarantee a very low standby-power. Therefore, they are also energy saving.

### 2-stage bagless cyclonic

The bagless cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and lasting cleaning performance. Its 2-stage filtration system ensures that, once inside, the dirt cannot escape. The first filter blocks most dirt, while the second filter traps the finer dust particles.

### Aerodynamic nozzle design

The aerodynamic nozzle design of the Philips MiniVac is created to ensure an optimum dust pick-up of even the most fine dust particles. The ergonomic shape of the nozzle helps you to clean even the most hard-to-reach areas.

### Longer-lasting lightweight Lithium-Ion batteries

The powerful Lithium-Ion (Li-Ion) batteries of the Philips Mini Vac have longer-lasting power versus standard Nickel-Cadmium (NiCd) batteries. Li-Ion batteries are also very lightweight, giving you a more enjoyable cleaning experience.

### One-step click-off nozzle

The Philips MiniVac vacuum cleaner is easy and quick to empty and hygienic to clean. The Philips MiniVac has a nozzle that easily clicks off in just one step, so you can empty the Mini Vac without touching the dirt.

### Quick charge in 8 hours

The Lithium batteries charges an empty battery in only 8 hours, twice as fast as in ordinary chargers.

## Specifications

### Design

**Color:** Black/stainless steel/ red accents  
**Design features:** Translucent dust chamber

### Filtration

**Dust capacity:** 0.5 L  
**Filter system:** 2-stage cyclonic action

### Nozzles and accessories

**Other accessories:** Charging base

### Performance

**Airflow (max):** 950 l/min  
**Battery type:** Li-Ion  
**Battery voltage:** 10.8 V  
**Charging time:** 8 hour(s)  
**Input power (max):** 100 W  
**Noise level (Lc IEC):** 81 dB  
**Runtime:** 9 minute(s)  
**Suction power (max):** 22 W  
**Vacuum (max):** 4.3 kPa

### Usability

**Special features:** Charging indication, Soft touch handle

### Weight and dimensions

**Dimensions of A-box (LxWxH):** 508 x 335 x 490 mm  
**Appliances per A-box:** 6  
**Dimensions of packaging (LxWxH):** 460 x 160 x 160 mm  
**Weight of product:** 0.8 kg
