Highlights

2000 Watt motor

Powerful 2000 Watt motor generates max. 450 Watt suction power for superior cleaning results

SilentSeal nozzle

The SilentSeal nozzle contributes to an optimal performance in both low noise and dust and fluff pick up. It is optimally sealed for efficient airflow resulting in best cleaning performance - made by WesselWerk.

Aerodynamic air channel

The air channel has been finetuned to make sure the air slides a smooth way out that minimizes noise creation. Additionally a special motor suspension reduces vibrations.

HEPA AirSeal, HEPA 13 filter

HEPA AirSeal & HEPA 13 filter

This Philips vacuum cleaner has been designed in such a way that all the air taken in is passed through the washable HEPA 13 filter (99.95% filtration) before it is exhausted. No escape is possible.

Parquet nozzle

No more risk of scratches thanks to this nozzle with soft brush hairs, especially designed to carefully clean your hard floors.

Comfortable carrying handles

This vacuum cleaner has not one, but two carrying handles. When it is on its wheels, there is a handle on top which enables you to easily move the cleaner around with very little bending. The second handle on the front side of the appliance enables you to comfortably carry it around in an upright position.
