- Cup warmer
- Ergonomic in day to day operation

Easy to clean and maintain

- Automatic cleaning and de-scaling
- Removable brewing group

PHILIPS

Saeco, a Philips brand

 **Saeco**

Highlights

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Bean to cup system

It means that whole coffee beans are freshly ground and directly processed for each and every beverage.

Ergonomy

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.

Coffee customisation

With Saeco fully automatic machines, you can customise your espresso as you like it: from a strong short espresso to a mild long coffee

Cup warmer

This feature allows you to not only store your espresso cups and glasses right on the espresso machine, it also pre-heats them letting the aroma unfold even better and guaranteeing a long-lasting crema

Auto cleaning and de-scaling

Easy to use and easy maintenance: Thanks to the automatic cleaning and descaling cycles, you are guaranteed perfect enjoyment every day and maximum longevity for your automatic espresso machine.

SBS (Saeco Brewing System)

The Philips Saeco automatic espresso machine exclusively allows you to adjust your espresso's intensity, altering the crema and body structure as it is dispensed. Simply by turning the knob you can prepare the crema exactly according to your taste. A little knob that makes a big difference.

Pannarello

With the pannarello you can froth your milk exactly how you like it. Just dip the pannarello in the milk and stir slowly in a circular motion. Froth the milk for as long as you want to create more or less foamy milk.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Specifications

Perfect Espresso

- Espresso technology: Aroma-system: pre-brewing, SBS: creme adaptor, Cup warmer

- Voltage: 230 V
- Pump Pressure: 15 Bar
