# Highlights

## Up to 5 bar

Double your ironing speed with pressurised steam. Pressurised steam penetrates deep into fabrics, making your ironing fast and easy, even on difficult fabrics.

## Carry-lock

Carrying your steam system has never been so easy. Lock your iron to the base using the lock-lever at the back and carry the entire system

with a single hand. This enables you to carry and store your system immediately and safely, any time you want.

## Iron resting mat

To improve comfort during ironing you can place the iron anywhere with the heat resistant iron resting mat. As you do not need to put the iron on its heel during intervals, you decrease the straining of your wrist. The resting mat is highly heat resistant, even when a soleplate heated to 250 °C is placed on it.

## Detachable 1.6 l water tank

A large water tank capacity enables you to iron with steam without having to refill. The tank can hold a large amount of water so you can iron for up to 3 hours uninterrupted. Being detachable, you can easily re-fill the tank any time. It gives you endless, powerful steam.
