# Highlights

## Airflow Max technology

Airflow Max technology maximizes the airflow, allowing the dustbag to unfold uniformly, so you get the highest suction power, even as the bag fills-up!

## 4L dust capacity

The specially designed 4L dust chamber allows you to make optimal use of your dust bag, so you can clean for longer.

## Extra long ergonomic grip

This ergonomically shaped grip is convenient in use. Its extra long design gives you farther reach, so you can easily clean hard to reach places.

## EPA 10 AirSeal

EPA 10 Filter and AirSeal capture the finest dust before the air is blown out for a dust-free environment and clean, healthy air.

## S-bag Classic Long Performance

This new Philips synthetic dust bag has been developed to provide long lasting vacuum cleaner performance, i.e. a high level of suction power and maximum filtration, up to the moment the dust bag is full and ready for disposal.

## 2100 Watt motor

2100 Watt motor generates max. 425 suction power for excellent cleaning results.
