Quick boiling, safer design

Extra protective wall for better heat insulation

This kettle is safe to touch* even during the boiling process thanks to its extra protective wall which helps to insulate heat efficiently(*except on metal finished parts).

Easy to experience

- Pilot light indicates when the kettle is switched on
- Cordless 360° pirouette base for easy lifting and placing
- Cord winder for easy storage
- Seamless design for easy cleaning
- Stainless steel inner lid with spring opening

Safe and fast boiling

- Flat heating element for fast boiling and easy cleaning
- Food grade stainless steel metal (SUS304)
- Strix controller provides multiple safety system
- Unique double housing design for quick and safer boiling
- Stainless steel spill-proof spout

Highlights

Cordless 360° pirouette base

Cordless 360° pirouette base for easy lifting and placing.

Food grade metal parts

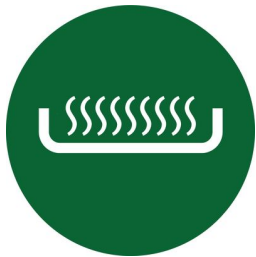

Food grade stainless steel metal parts(SUS304) to guarantee a safe and clean cup of water.

Strix controller

UK-designed Strix controller provides multi safety system against boil-dry, with auto switch off when ready or when lifted from the base.

Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.

Seamless design

Stainless steel seamless inner pot, with wide opening, ensures fast boiling and easy cleaning

Double housing design

This kettle's unique double housing design provides you safe-to-touch experience (*except on metal parts), and keeps water warm 50% longer than Philips HD9306 (regular single-wall metal kettle)

Pilot light

Elegant light incorporated in the on/off switch indicates when the kettle is on.

Spring lid with release button

Spring opening inner lid is made of stainless steel and opens effortlessly at the touch of a button, also avoiding steam contact. Thanks to the ergonomic 70 degree lid opening, condensed water is perfectly restrained from dripping onto the kettle's body and handle after boiling.

Stainless steel spout

Spill-proof spout is made of food grade stainless steel and efficiently prevents water spilling out, ensuring safe boiling and clean cup of water at all times

Cord winder

The cord can be wrapped around the base, so that the kettle is easy to place in your kitchen.

Specifications

Country of origin

Made in: China

General specifications
