PHILIPS

Saeco, a Philips brand

 **Saeco**

Highlights

5 step adjustable grinders

Different coffee blends require different levels of granularity for the full flavor to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full bodied espresso, to the coarsest, for a lighter coffee.

Customize coffee

With Saeco you can select your preferred coffee length via the central rotary knob

Bean to cup system

It means that whole coffee beans are freshly ground and directly processed for each and every beverage.

Cup holder

With this practical feature you can store your espresso cups and glasses right on the espresso machine - always within reach and conveniently stored without taking up space.

Ergonomy

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.

Classic milk frother

This Saeco espresso machine comes with the classic milk frother that baristas call a "Pannarello". It dispenses steam and is immersed in milk to prepare gorgeous milk

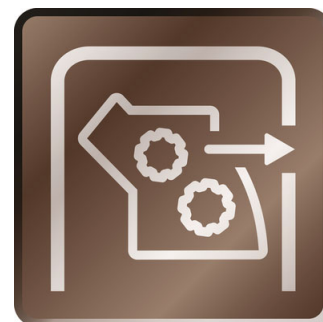

foam. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Descaler Warning

Dedicated led to advise the end user that the machine needs to be descaled

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easily cleaning by rinsing under the tap ensuring maximum hygiene.
