- 15 bars pressure for full Espresso taste
- Classic milk frother for a tasty Cappuccino
- Coffee pods compatible

...in continua evoluzione

- Rotating classic milk frother for hassle-free frothing

GAGGIA
MILANO

HIGHLIGHTS

Professional filter holder

The heavy filter holder on your machine is made from chromed brass and also used on all professional Gaggia Espresso machines. Only the professional filter holder will give you consistent coffee temperature and the real Barista experience.

15 Bar

The 15bar pressure of your Gaggia coffee machine will make sure you always get the authentic Espresso taste.

Coffee pods compatible

Our Gaggia manual machines come with a coffee filter for 1 or 2 cups of ground coffee, and a special

filter for so called ESE (easy serve Espresso) pods. These ESE pods are perfectly portioned and make it easier to operate a manual Espresso machine.

Classic milk frother

The classic milk frother on this Gaggia Espresso machine, traditionally called "Panarello", turns milk into gorgeous milk froth within seconds for a Cappuccino, a Latte Macchiato or more. It also delivers hot water for tea.

Rotating classic milk frother

The classic milk frother on this Gaggia Espresso machine, traditionally called "Pannarello", turns milk into gorgeous milk froth within seconds for a Cappuccino, a Latte Macchiato or more. It also delivers hot water for tea and can be easily rotated for hassle-free frothing.
