Live the pleasure of Italian espresso at home Compact and stylish bean-to-cup system

Syntia is the perfect synthesis of compactness, performance, design and high end materials - everything for your italian espresso enjoyment at a single touch

Ease of cleaning and maintaining

- Always a clean machine thanks to auto-clean and descaling

A variety of coffees customized to your taste

- Fine-tune the coffee's richness with 5 grinder settings
- Customize strength, temperature and length for each drink

High comfort is part of the experience

- The fully removable brewing group can be cleaned in no time

Highlights

Auto cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt when descaling is needed, the automated descaling process will start on your machine and guides you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

5-steps adjustable grinders

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavor to unfold. So the grind granularity

of this machine has five adjustable settings - from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.

Customize strength and more

With 6 settings from extra strong to extra mild, you can adjust the amount of the coffee being ground to your liking. Furthermore, you can adjust and save the temperature, length and milk foam amount for future brews.

Removable brewing group

Efficiency and ease of use were key inspirations when Saeco invented the first brewing group 30 years ago. And to this day, it still proves to be an inspired, resolute piece of technology. As always, it's so simple to clean - just remove it and wash it under the tap for a few seconds, then re-insert it just as easily.

Specifications

Weight and dimensions

Dimensions of product (WxDxH): 256 x 315 x 415 mm

Weight of product: 9 kg

Country of origin

Made in: Europe

Design

Color: Stainless steel

Finishing

Material boiler: Stainless steel (Inox)

Material of main body: Stainless steel

Material water tank: Plastic

General specifications

Suitable for: Whole coffee beans, ground coffee powder

Cups at the same time: 2

Customizing per drink: Adjustable coffee strength, Adjustable cup volume, Adjustable temperature

Ease of cleaning & maintenance: Automatic de-scaling cycle, Automatic rinse cycle, Dishwasher-safe parts, Removable brewing group

Ease of use and comfort: Adjustable spout, Display, Removable drip-tray, Removable water tank

Special functions: Ceramic grinder, Hot water option, Manual milk frother Pannarello, Ground coffee option, Pre-brewing, Steam option

Type of boiler: Stainless steel boiler

Type of display: LCD

Coffee drinks: Espresso, Café Crème

Service

1-year guarantee

Sustainability

Power consumption brewing: 1400 W

Technical specifications

Capacity bean container: 250 gr

Capacity waste container: 8 servings

Capacity water tank: 1.2 L

Cord length: 0.8 m

Frequency: 60 Hz

Max. cup height: 95 mm

Pump pressure: 15 bar

Voltage: 120 V

Water boilers: 1
