Highlights

Auto-cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water when starting up or switching off to deliver a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. Not only will this machine prompt you when descaling is needed, but the automated descaling process will start and guide you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

Cup warmer

This feature allows you to not only store your espresso cups and glasses right on the espresso machine, it also pre-heats them letting the aroma unfold even better and guaranteeing a long-lasting crema

One-click removable group

The brewing group – a Saeco invention - is the heart of our machines, ensuring that the machine makes everything on its own. Thanks to its easy access, you can effortlessly remove it for regular cleaning with just one click.

Auto-lift drip tray

Gaggia's patented automatically adjustable drip tray will allow cups of all sizes to fit under your Espresso machine.

Ergonomy

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box

or the drip tray, all compartments are directly accessible.

Classic milk frother

Unleash your inner barista, preparing your delicious milk specialities the traditional way guaranteeing a gorgeous foam.

Coffee Customisation

With Saeco you can always easily select the coffee length, intensity, temperature and strength you prefer. Your personal settings are memorised, so you can enjoy your favourite coffee at the touch of a button.
