- TriActive nozzle with unique 3-in-1 action
- SuperTurbo Brush for pet hair-free carpets

Easy dust disposal

- Advanced dust bucket design for easy emptying

Effortless cleaning

- Lightweight design for maneuverability

Highlights

PowerCyclone 6

The aerodynamic design of PowerCyclone 6 minimizes air resistance and ensures exceptional cleaning performance through 3 highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber. 3) At the top of the cyclone, the exit blades effectively cut out the dust from the air.

TriActive nozzle

The TriActive nozzle cleans your floor in 3 ways in one go: 1) A larger opening at the tip of the nozzle easily sucks up big bits. 2) It has maximum cleaning efficiency due to optimized airflow through the nozzle. 3) The two side brushes sweep up the dust and dirt closely alongside furniture and walls.

SuperTurbo Brush

Super TurboBrush perfectly removes pet hair from carpets.

Easy to empty dust bucket

The dust container is perfectly designed for effortless dust disposal. Thanks to its unique shape and smooth surface, dust is collected at one side of the bucket and evenly glides into the dust bin.

Lightweight design

Only 5.5 kg lightweight design ensures great maneuverability.
