Fast, from start to finish

3 ways to speed up your ironing

This EasySpeed iron speeds up your ironing thanks to: triple precision tip, even heat distribution across the soleplate and continuous steam.

Comfortable ironing

- A fine spray evenly moistens the fabric
- Drip-stop system keeps your garments spotless while ironing
- Even steam distribution for efficient ironing
- Triple precision tip for optimal control and visibility
- Iron switches off automatically when left unattended

Longer lifetime

- Calc clean slider to easily remove scale out of your iron

Easily removes creases

- Vertical steam for crease removal in hanging fabrics
- Continuous steam output up to 35 g/min
- 110 g steam boost to remove stubborn creases easily
- Ceramic soleplate for better gliding performance
- Power up to 2200 W enabling constant high steam output

Highlights

Power up to 2200 W

Power up to 2200 W enables constant high steam output.

Steam boost up to 110 g

The iron's 110 g steam boost enables you to easily remove even the most stubborn creases.

Steam output up to 35 g/min

Continuous steam output of up to 35 g/min gives you the perfect amount of steam to efficiently remove all creases.

Ceramic soleplate

Ceramic soleplate is scratch resistant, glides well and easy to clean.

Vertical steam

This Philips iron has a vertical steam function, for crease removal in hanging fabrics.

Calc clean slider

This steam iron can be operated with normal tap water and the calc clean slider makes it easy to remove any built-up scale out of your iron. To maintain the performance of your Philips steam iron, you should use this scale clean function once a month when using normal tap water.

Automatic shut-off

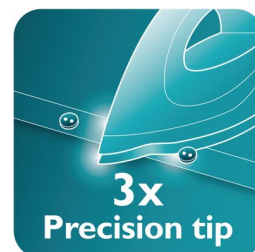

The iron shuts off automatically when left unattended. If it is left on it's heelrest it will switch off in 8 minutes. When left on the soleplate or on the side, it only takes 30 seconds before the iron shuts off.

Drip stop system

Drip Stop system lets you iron delicate fabrics at low temperatures without having to worry about stains from water droplets.

Triple precision tip

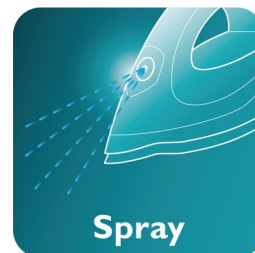

The tip of this Philips iron is precise in 3 ways: it has a pointed tip, button groove and a sleek design of the nose. Triple Precision tip enables you to reach even into the most tricky areas, e.g. around the buttons or between the pleats.

Even steam distribution

Thanks to the carefully crafted soleplate design, the steam is distributed evenly across the soleplate. This way you need less strokes to evenly moisten the garment and therefore less time to complete the ironing.

Spray

The spray function produces a fine mist that evenly moistens the fabric, making it easier to iron out creases.
