

PHILIPS

HD 3271 compact upright fan heater

Let's make things better.

PHILIPS

HD 3271

COMPACT UPRIGHT FAN HEATER

A compact and powerful fan heater, offering the best in safety, heating performance, low noise level and ease of use. The eye-catching design, selling itself on the shelf, has been tested and optimized to radiate all the above aspects. Safety level is according the latest European standards, with overheating protection, stable design, double insulation and self extinguishing material. The basic featurig, combined with the attractive design, makes the product a strong offer for the economy segment. Design, colour scheme and graphics are in line with all new Philips Air Treatment products.

Power consumption	: 1000 – 2000 W
Rotary speed switch	: 3 positions cool – 1000 – 2000 W
Overheating protection	: manual thermal cut out fuse (reset by unplugging)

PACKAGING

Dimensions (w x d x h):	
• Product	: 23 x 13 x 26.5 cm
• F-box	: 24 x 16 x 29 cm
• A-box	: 53 x 35 x 31 cm (4 pcs)
Weight:	
• Product	: 1390 g
• F-box	: 250 g
• A-box	: 730 g
Pallet quantity	: 36 A-box = 144 pcs

CTV	: 8823 271 00000
EAN I	: 87 10103 073574
EAN II (A-box)	: 87 10103 073673
