

# Philips PowerPro Compact Bagless vacuum cleaner

Philips PowerPro Compact picks up more dust and filters out 99.9% for clean floors and fresh air. Powerful cyclonic action and advanced design put dirt in its place and keep it there to control dust, even while emptying.

## Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the six Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

### Energy

- Standby energy <0.5W
- Annual energy consumption:
  - Input power 650W: 26 kWh/year\*
  - Input power 1600W: 112 kWh/year\*
