- PowerCyclone 5 technology separates dust and air in one go
- PowerControl function for extra power when you need it

Easy to clean

- Advanced dust container design for hygienic emptying
- Extra handle for easy carrying

Extra reach for perfect cleaning results

- Crevice tool help you to clean your furniture.
- Integrated brush on handgrip

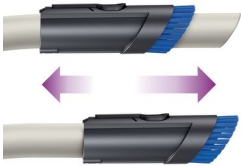

Highlights

PowerCyclone 5 Technology

PowerCyclone 5 technology maximizes airflow and performance by separating dirt from air in one go. It delivers remarkable cleaning results through highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the air inlet design. 2) The curved airpass quickly accelerates the air in the cyclonic chamber to separate the dust from the air. 3) The optimized exit blades separate dirt from the cyclone and into the dust bucket.

Integrated brush

A tool always at hand for cleaning furniture and small spaces.

Crevice tool

Crevice tool help you to clean your furniture.

Easy to empty dust container

The dust container is carefully designed to dispose collected dirt without creating a dust cloud. It is one-hand operated and thanks to its unique shape and smooth surface, you can easily control the emptying of the dust container.

Easy Carrying

Extra handle for easy carrying.

Big rubber wheels

The big wheels are made with soft rubber on the outside, so they will not damage your floor during usage.

PowerControl function

You can adjust the suction power with the turning wheel. Turn to the maximum for extra power when you need it.

Specifications

Design
