Highlights

100% easy to use

100% easy to use, no adjustment required. You can now iron all ironable garments one after the other, without having to wait or to adjust the iron's temperature dial.

100% safe

100% safe on all fabrics even the most delicate like silk, cashmere, wool, polyester. Independent iron testing institutes have used PerfectCare on the most sensitive ironable garments and they confirmed excellent ironing results.

100% fast

100% fast on the toughest fabrics, no other steam generator is faster from start to finish.

Tested and approved:

This iron is tested and approved by independent textile expert institutes, such as DWI, IWTO and Woolmark, for its excellent ironing performance. The Woolmark Apparel Care programme helps consumers to identify quality laundry products that are approved by The Woolmark Company for use on wool products. Philips, with its exclusive OptimalTEMP technology, is so far the only

brand to be certified with the Gold standard from Woolmark. You can be confident that Woolmark-approved apparel care products are ideal for any wool garments.

Up to 5 bar pressure

Up to
5 bar

The more steam, the faster the ironing. Consistent powerful steam is generated which penetrates deep inside the garments making ironing both faster and better. Steam power can be regulated to suit your needs.

2.2 l fully visible water tank

**XXL
Water tank**

PerfectCare Aqua has this unique feature: large water tank. It means you can iron for hours without refilling the water tank. It helps make ironing sessions easier and faster. The excellent design of the fully visible water tank means you can see the water level when you look from any angle.

Safe rest

The innovative Philips OptimalTEMP technology guarantees no burns on all ironable fabrics. During ironing, there is no need to put your iron back on the base station; just leave the hot iron soleplate directly on the garments or cotton ironing board cover without

an additional resting accessory. It will not damage any of your ironable garments, or the board. This makes your ironing easier, with less wrist effort.

Easy De-Calc

Ultra-long-lasting steam performance: Philips' exclusive Easy De-Calc function provides the ideal way to get rid of limescale and extend the lifetime of your steam generator iron. Your iron will remind you to de-calc with light and sound. When your appliance is cold, simply open the Easy De-Calc knob and collect the dirty water and limescale in a cup.

New SteamGlide soleplate

The new SteamGlide soleplate is the best Philips soleplate. Is extremely scratch resistant, glides excellently and is easy to clean.
