PHILIPS

Highlights

DualBrew Technology

Drink your coffee at its best. DualBrew Technology ensures that each cup of Senseo® coffee and each jug of filter coffee is brewed into perfection with the right pressure and amount of water.

Variety of pad & filter coffee

With Senseo® Switch you can enjoy a large variety of pad and filter coffee blends and flavors. Therefore you can always drink the coffee you like the most.

Jug for 10 cups

The stainless steel thermal jug offers you to brew up to 10 cups of authentic filter coffee in

one go. Ideal for a lazy Sunday morning breakfast or when you want to enjoy coffee together

1 or 2 cups at the same time

This Senseo® coffeemaker prepares one or two cups of delicious Senseo® coffee from pads in less than a minute.

Stainless steel thermal jug

The stainless steel thermal jug maintains the temperature and aroma for hours

Delicious crema layer

The fine Senseo® pad selection and the DualBrew technology make sure that your

perfect cup of Senseo® pad coffee always comes with a rich and delicious crema layer.

Machine is tested >10.000 time

Philips tests their coffee makers during the development process for more than 10.000 cups of coffee. This ensures high quality and durability

One touch operation

With its simple 3 button interface you can brew 1 cup, 2 cups and a jug at the touch of a button.

1L water tank

Thanks to the 1 liter water tank you can brew up to 7 cups of coffee without refilling.
