

PHILIPS

NanoProtect filter HEPA Series 1

0.02µm* Particle Filtration

Easy to install

FY1119/20

Breathe the difference

Effective Nano Protect purification

Easy installation

- Filter is easy to install

Healthy air protect alert

- Healthy air protect alert

Effective NanoProtect purification

- High capacity filtration
- Effectively remove pollutant with the Nano Protect filter

Highlights

Easy install filter

Simply take filter out of the package, replace the used filter in the appliance and press the reset button on the UI

Healthy air protect alert

Healthy air protect alert lets you know promptly when it is time to replace the filter. If the filter or wick is not replaced promptly, the appliance stops functioning to avoid running with no effect since filter or wick not effective. So you are assured of healthy air always.

High capacity filtration

Surface area unfolds to 1.45m² for high capacity filtration. Reduce allergen exposure.

Nano Protect purification

The Nano Protect filter effectively remove pollutant as small as 0.02 µm, including fine dust, pollen, dust mites, bacteria* and some virus*. Surface area unfolds to 1.45 m² for high capacity filtration. Reduce allergen and protect you from allergy symptom.

Specifications

Country of origin
