**GC6630**

## Faster and easier ironing\*\*

with twice as much steam\*\* as a steam iron

The Philips SpeedCare steam generator delivers more steam than a steam iron, helping you to speed up your ironing. Enjoy more quality time with your family thanks to the reduced ironing time with the Philips SpeedCare steam generator iron.

### **Fast and powerful ironing**

- Ready to use in 2 minutes with unlimited refill
- Lock your iron securely to the base station
- Continuous steam up to 110 g/min
- Automatically turned off for safety and energy saving
- Triple precision tip for optimal control and visibility
- Compact size and light weight for easy storage
- Smart Calc cleaning system with a sound and light cleaning reminder
- 1.2-l water tank and refill at any time during ironing
- Max 4.8 bar pump pressure

**PHILIPS**

# Highlights

## Steam ready in 2 minutes

Steam is ready to use in 2 minutes and can be refilled at any time during ironing.

## Safety carry lock

Your steam generator iron comes with a safety carry lock. You can lock your iron safely on the base, making it safer and reducing the risk of people touching the hot soleplate. You can also carry the steam generator easily.

## Continuous steam

The more steam, the faster the ironing. The unique technology in a Philips steam generator iron generates powerful steam making ironing easier, better and faster.

## Automatic shut-off

The safety auto off function automatically switches off the appliance if it has not been used for a few minutes, also saving energy.

## Triple precision tip

The tip of this Philips iron is precise in 3 ways: it has a pointed tip, button groove and a sleek nose design. The triple precision tip enables you to reach even the most tricky areas, e.g. around the buttons or between the pleats.

## Compact size and light weight

Thanks to the revolutionary ProVelocity technology, we made your steam generator iron more compact than ever before. The compact steam generator fits easily on your

ironing board making your ironing more convenient. In addition, your steam generator takes much less storage space.

## Smart Calc cleaning system

The Smart Calc cleaning system is an integrated descaling and cleaning function that protects your steam generator iron. After around 10 hours of ironing, your steam generator iron will remind you to perform the Calc cleaning process with a sound and light notification. The iron conveniently rests on the Calc container as it collects the dirty water, so you don't have to strain to hold the iron during the process. After all the water has been collected in the container, your steam generator iron is ready to use again.

## 1.2-l water tank

The SpeedCare steam generator has a 1.2-l water tank capacity to allow you to iron for over an hour. It helps to reduce the number of refills required for large laundry loads. The technology will also allow you refill the water tank during ironing without the appliance cooling down for 2 hours while it is waiting to be refilled.

# Specifications

## Easy to use

- Hose length: 1.6 m
- Power cord length: 1.8 m
- Heat-up time: 2 min
- Water tank capacity: 1200 ml
- Ultra-light and comfortable
- Cord freedom (swivel): 180 degree cord freedom
