

**Saeco Exprelia Evo
Super-automatic
espresso machine**

- Brews 7 coffee varieties
- Integrated milk jug & frother
- Stainless steel
- 5 step adjustable grinder

HD8857/47

Experience the fine art of making coffee with the hygiene-proof milk jug certified by VDE

With the Saeco Exprelia Evo, aspiring coffee experts can experience the thrill of preparing a cup as professionals would, with the ability to customize multiple drinks and the guarantee of a perfect hygiene

Advanced technology designed for coffee perfection

- Extract maximum flavor with the 100% ceramic grinders

High comfort is part of the experience

- The fully removable brewing group can be cleaned in no time
- Proven hygiene with the patented steam cleaning carafe

A variety of coffees customized to your taste

- Fine-tune the coffee's richness with 8 grinder settings
- The strength selection remembers just how strong you like it
- Enjoy a crema layer as you like it with a twist of a knob

Highlights

100% Ceramic grinders

The robust 100% ceramic grinders guarantee a moment of pure coffee indulgence for years to come. The ceramic material creates the ideal grind, which allows the water to flow through steadily, extracting the purest essence of the beans. And unlike other 'regular' grinders', the ceramic material prevents the coffee from overheating and tasting burnt.

Removable brewing group

Efficiency and ease of use were key inspirations when Saeco invented the first brewing group 30 years ago. And to this day, it still proves to be an inspired, resolute piece of technology. As always, it's so simple to clean – just remove it and wash it under the tap for a few seconds, then re-insert it just as easily.

Fine-tune the coffee's flavor

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavor to unfold. So the grind granularity of this machine has eight adjustable settings – from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee

Memo Function

Once you've chosen your ideal strength from the 5 different settings, you can easily save it with the Memo Function, as well your desired length and temperature. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

Refine crema and body quality

Enjoy a crema layer just the way you like it and discover a wide spectrum of tastes, all with the twist of a knob! You control the coffee flow and brew pressure to vary the body and thickness of the crema with one easy move. Turn it left for a luxurious, thick crema layer and an intense and full bodied espresso; Or turn it right for a smooth, lighter tasting coffee with less crema.

Hygienic steam cleaning carafe

Maintaining high hygiene has never been this easy. Thanks to the Steam Cleaning Cycle, the frothing mechanism will be automatically cleaned, removing milk residues without the need to empty the carafe. The hygienic performance is certified by the independent German test institute, VDE.

Specifications

Sustainability

- Power consumption brewing: 1400 W

General specifications

- Cups at the same time: 2
- Suitable for: Whole coffee beans, ground coffee powder
- Type of carafe: Basic carafe
- Type of display: LCD
- Special functions: Ceramic grinder, Integrated carafe, Pre-brewing, Ground coffee option, Crema adjustment knob
- Customizing per drink: Adjustable milk foam amount
- Ease of use and comfort: Removable water tank, Display, Adjustable spout
- Ease of cleaning & maintenance: Automatic descaling cycle, Removable brewing group, Automatic carafe cleaning, Automatic rinse cycle
- Coffee drinks: Espresso, Cappuccino, hot water, Café Crème, frothed milk, Espresso Macchiato, Latte Macchiato

Finishing

- Material boiler: Stainless steel (Inox)
- Material drip tray: Stainless steel
- Material of main body: Stainless steel
- Material water tank: Plastic

Country of origin

- Made in: Italy

Service

- 1-year guarantee

Technical specifications

- Pump pressure: 15 bar
- Capacity milk carafe: 500 L
- Capacity bean container: 300 gr
- Capacity waste container: 11 servings
- Max. cup height: 150 mm
- Water boilers: 2
- Cord length: 0.8 m
- Capacity water tank: 1.5 L
- Frequency: 60 Hz
- Voltage: 120 V

Weight and dimensions

- Weight of product: 14.2 kg
- Dimensions of product (WxDxH): 245 x 420 x 360 mm

Design

- Color: Stainless steel
