Highlights

ProMix blending technology

Developed together with the prestigious Stuttgart University, Philips ProMix is a unique, advanced technology that uses a specific triangular shape to create optimal food flow and maximum performance for faster and more consistent blending.

Powerful 700 W motor

The Philips handblender with powerful and reliable motor of 700 Watt can blend and almost any ingredient and delivers smooth results. With this motor power this hand blender can drive also a large variety of accessoires.

Foodprocessor accessory

With the 1,5L foodprocessor accessory of the Philips handblender you can chop slice and shred ingredients like vegetables, herbs, meat, cheese.

Whisk accessory

Single whisk accessory for Philips hand blender for whipping cream, mayonnaise, pan cake batter and more. Makes your hand blender multifunctional and versatile.

ProMix Beaker 1L

A 1L triangular beaker is included with the handblender. The beaker of the handblender comes with a handy spout and measures. The unique triangular shape feature of the beaker offers an easy grip and creates a vortex that pulls down the ingredients towards the bottom of the beaker where the ProMix blending bar cage is, for optimal blending, whisking and mixing.

Anti-splash blade guard

The special wave shape in the bottom part of the handblender blending bar guarantees no splashes or mess while you blend.

Ergonomic rubber grip

Ergonomic soft touch handgrip, designed to give a secure and safe grip which allows for easy holding and maneuvering of the hand blender during use.

Single-Button Release System

Simple, quick and easy attachment and detachment of the blending bar and all the accessories with the use of one finger.
