Faster, Easier and Smarter

With our best gliding soleplate yet

The Philips steam iron Azur Performer combines powerful performance with ease of use. Combining easy Quick Calc Release with our 5-star rated, best gliding T-ionicGlide soleplate and Safety Auto Off to give optimal ironing results, easily.

Fast and powerful performance

- 2600 W for quick heat up and powerful performance
- Steam output of up to 50 g/min for better crease removal
- Steam boost up to 210 g

Easy gliding on all fabrics

- T-ionicGlide: our best 5-star rated soleplate

Safe ironing

- Self-Clean for effective calc removal
- Iron switches off automatically when left unattended
- Quick calc release to remove scale from your steamer

Comfortable ironing

- Auto Steam Control for the right steam for each garment
- Triple precision tip for optimal control and visibility
- Optimal weight for easier manoeuvrability over your garments

Highlights

2600 W for quick heat up

2600 W for quick heat up and powerful performance.

Steam up to 50 g/min

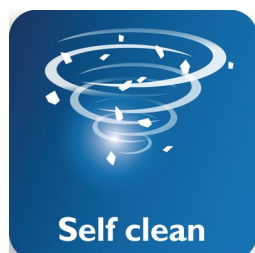

Continuous steam output of up to 50 g/min gives you the perfect amount of steam to efficiently remove all creases.

Steam boost up to 210 g

The steam boost can be used for vertical steaming and tough creases.

Self-Clean

In addition to the built-in calc container, the self-clean function of your soleplate will remove the most stubborn calc. A clean soleplate will improve your steam performance and ironing results.

Automatic shut-off

The steam iron shuts off automatically when left unattended. It will switch off after 8 minutes when left standing on its heelrest and after 30 seconds when left resting on its soleplate or sides.

Auto Steam Control

Auto Steam Control takes away your worry for selecting the amount of steam you need. Just select the temperature for the garments you're ironing and off you go.

Triple Precision Tip

The pointed tip on the Philips Azur Performer is very precise in 3 ways: it has a pointed tip, button groove and a sleek design of the nose. The Triple Precision tip enables you to reach even into the most tricky areas, e.g. around the buttons or between the pleats.

Optimal weight

The iron has the optimal weight to move easily over any garment, making ironing less of a hassle and easy to constantly place the iron on the board and back to its heel rest.

Quick calc release

Quick calc release is the easiest way to remove scale from your iron and guarantees consistently powerful steam for years to come.
