# Highlights

## 100% Ceramic grinders

Our grinders are made of high-tech ceramic: exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating: extracting all the best flavors and aroma, delivering a superior coffee taste for at least 20,000 cups.

## Quick Heat Boiler

When time is of the essence, you can brew perfect espresso and cappuccino without the wait, thanks to the Quick Heat Boiler. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

## Classic Milk Frother

The Classic Milk Frother is for those who love to assume the role of master craftsman, and it's

just easy. Within seconds you can create a rich, silky layer of foam - the crowning glory of your coffee.

## AquaClean filter

Saeco's new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups\*, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your favourite Saeco coffee machine.

## Powder Option

Sometimes it's nice to have the option of a full-bodied, delicious coffee, without the caffeine kick. Thanks to the Powder Option you can make decaffeinated coffee whenever you please.

## Designed for efficiency

Saeco Incanto ingeniously combines efficiency with attentiveness to meet the highest standards for your home – keeping water consumption and energy usage low. And with the programmable stand-by, just tell the Saeco Incanto when it won't be needed and it will switch itself off automatically. Easy.

## Auto-cleaning

The automatic cleaning cycle makes it easy to look after, and it increases the machine's longevity – giving you more time to enjoy your coffee instead of cleaning up.

# Specifications

## Finishing

- Material boiler: Stainless steel (Inox)
- Material drip tray: Stainless steel
- Material panarello: Stainless steel
- Material water tank: Plastic
- Material of main body: Plastic
