8 Clever solutions for truly easy ironing

With unique ShoulderWing System

The ironing board plays an important role in the ironing experience. The new Philips ironing board GC240/05 has thought about every detail to make your ironing truly easy. The board includes 8 clever solutions that solve all ironing hassle.

Fast ironing

- Smoother gliding with multi-layered board cover
- Iron more in one go: XL board shape

Convenient ironing

- Keep the cord out of the way: special cord holder
- Hang garments after ironing: convenient hanging rail
- Keep your belongings close: unique storage basket

Safe ironing

- Perfect combination with steam generators: XL iron tray
- Designed for safety: child and transport lock
- Extra stability: Double leg construction with anti-slip feet

Highlights

Multi-layered board cover

The board cover is made of 100% cotton and is supported by foam and felt layers. This combination provides a comfortable and smooth ironing surface.

Convenient hanging rail

No need to look for a place around you to hang your freshly ironed shirts. You can hang garments directly after ironing on the convenient hanging rail.

Double leg construction

The ironing board is supported by double leg construction with anti-slip feet caps that provides extra stability.

XL board shape

Iron more in one go with Philips XL board shape (120 x 45cm). It is also ideal for ironing big items such as bed lines and table cloths.

XL iron tray

The stable and extra-large iron tray is perfect for steam generators. It is also heat resistant and can be safely used with steam irons.

Special cord holder

Use the cord holder to keep the cord or the steam hose out of the way. The cord holder pole elevates the cord so that it does not touch the garment while ironing, eliminating new creases on the already ironed parts.

Child and transport lock

Child and transport lock prevents accidental collapsing of the board while ironing and also keeps the board closed during storage.
