GAGGIA'S ICONIC MODEL SINCE 1977

TRADITIONAL PROFESSIONAL BOILER AND FILTER HOLDER

Traditional design, latest technology. Baby was Gaggia's first household Espresso machines and is now being rejuvenated with exclusive metal details while preserving traditional elements like the professional chromed brass filter holder.

Tradizione...

- Solenoid valve for easier coffee disposal
- 15 bars pressure for full Espresso taste
- Classic milk frother for a tasty Cappuccino
- Cup plate
- Coffee pods compatible

...in continua evoluzione

- Water filter ready for pure flavor
- Rotating classic milk frother for hassle-free frothing

GAGGIA
MILANO

HIGHLIGHTS

Classic milk frother

The classic milk frother on this Gaggia Espresso machine, traditionally called "Panarello", turns milk into gorgeous milk froth within seconds for a Cappuccino, a Latte Macchiato or more. It also delivers hot water for tea.

Coffee pods compatible

Our Gaggia manual machines come with a coffee filter for 1 or 2 cups of ground coffee, and a special filter for so called ESE (easy serve Espresso) pods. These ESE pods are perfectly portioned and make it easier to operate a manual Espresso machine.

Water filter ready

The optional water filter can prevent tainting of the coffee and maintains a purer flavor. It will also prevent the building of limestone inside the Espresso machine. This way you have to descale less and you can prolong the lifetime of your Gaggia.

Solenoid valve

When switching off your Gaggia Espresso machine, the solenoid valve releases the water pressure completely, allowing the used coffee puck to dry. This ensures easier cleaning after preparing an Espresso.

15 Bar

The 15bar pressure of your Gaggia coffee machine will make sure you always get the authentic Espresso taste.

Rotating classic milk frother

The classic milk frother on this Gaggia Espresso machine, traditionally called "Pannarello", turns milk into gorgeous milk froth within seconds for a Cappuccino, a Latte Macchiato or more. It also delivers hot water for tea and can be easily rotated for hassle-free frothing.

Cup plate

The cup plate on top of the Espresso machine makes it easy to always have a cup handy.

SPECIFICATIONS

Weight and dimensions

- Product dimensions: 24,5 x 40,0 x 26,5 cm
- Product weight: 7,5 kg
- Water tank capacity: 1,6 L
- Maximum cup height: 75 mm

Technical data

- Boiler: Anodized
- Frequency: 50 Hz
- Power: 1300 W
- Pump Pressure: 15 bar
- Voltage: 230 V

Design

- Colour: red
- Materials and finishing: abs painted

Features

- Brita Filter compatible
- Cupholder
- Hot water / Steam Nozzle
- Interface: Direct buttons
- Pannarello: Plastic
- Removable watertank
- Simultaneous brewing
- Suitable for pods
