## Live the pleasure of Italian espresso at home

### Compact and stylish bean-to-cup system

Syntia is the perfect synthesis of compactness, performance, design and high end materials—everything for your Italian espresso enjoyment at a single touch

#### Enjoy an Italian lifestyle at home

- Compact and stylish
- One touch espresso and long coffee

#### Grind your favourite coffee beans

- Play with the coffee's richness with our adjustable grinders

#### Easy to use

- Intuitive colour coded user interface
- Ergonomic in day to day operation

#### Easy to clean and maintain

- Always a clean machine thanks to automatic circuit cleaning
- Easy cleaning thanks to removable brewing group

# Highlights

## 5-step adjustable grinders

Different coffee blends require different levels of granularity for the full flavour to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full-bodied espresso, to the coarsest, for a lighter coffee.

## Automatic circuit cleaning

Saeco designed this espresso machine to automatically clean its coffee circuit with water when the machine is started up or switched off. This delivers a great, fresh taste with each cup of coffee.

## Compact and stylish

Compact and stylish, the Syntia coffee machine is designed to delight both your palate and your eyes – the perfect fit for a modern kitchen.

## Ergonomic day to day

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments of the full automatic coffee machine are directly accessible.

## Colour coded user interface

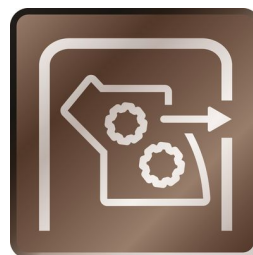

Easy and intuitive interactions thanks to the combination of LED and buttons — this interface directly communicates the key operating messages.

## Espresso and long coffee

Whether you want to enjoy an espresso or a long coffee, your favourites are accessible at the touch of a button

## Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easy cleaning by rinsing under the tap, ensuring maximum hygiene.

# Specifications
