Highlights

OptimalTEMP technology

Now you can iron from jeans to silk with no temperature setting required. Guaranteed no burn on all ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust temperature 2) Powerful Cyclonic steam chamber which delivers powerful consistent steam, making ironing easier and faster.

Easy De-Calc

Ultra long lasting steam performance: Philips' exclusive Easy De-Calc function provides the ideal way to get rid of limescale and extend the lifetime of your steam generator iron. Your iron will remind you with light and sound when to perform cleaning. Only when your appliance is cold, simply open the Easy De-Calc knob, and collect the dirty water and scale in a cup.

Energy saving

By using the ECO mode, with reduced amount of steam, you can save energy without compromising on the ironing results.

New SteamGlide soleplate

New SteamGlide soleplate is the best Philips soleplate. It has great scratch resistancy, glides excellent and is easy to clean.

Refill tap water any time

Your steam generator iron is designed to use tap water. While ironing, when you run out of water in the watertank, you can refill it easily without waiting or turning your appliance off.

Safe rest

The Philips innovative OptimalTEMP technology guarantees no burn on all ironable fabrics. During ironing, no need to put your iron back to the base station, just leave the hot iron soleplate directly on the garments or cotton

ironing board cover without additional resting accessory. It will not damage any of your ironable garments, neither the board. This makes your ironing easier with less wrist efforts.

Steam boost up to 240 g

The steam boost can be used for vertical steaming and tough creases.

Steam ready in 2 minutes

Steam is ready to use in 2min and can be refilled at anytime during ironing.

2.5 L fully visible water tank

The extra large 2,5 L watertank ensures up to 3 hours ironing without any refilling. It makes your ironing faster and easier. Thanks to the clear watertank, you can see the water level from any angle and ensure you still have enough water to steam efficiently.
