PerfectCare Pure

Max 5 bar pump pressure

240 g steam boost

Carry lock

1.5 L fixed watertank

GC7635/30

Faster and easier ironing

with no temperature adjustment required

Iron your garments without adjusting temperature thanks to the revolutionary OptimalTEMP technology. Much more compact and light weight design for easier storage. 99% calc free, Pure Steam anti-scale cartridges increase life by 5 times

Carefree ironing, no temperature setting required

- Iron from jeans to silk with no temperature setting required
- Safe to leave the hot soleplate on the ironing board
- Tested and approved by independent textile experts

Fast and powerful ironing

- Max 5 bar pump pressure
- Tap water friendly, refill anytime during ironing
- Automatically turned off for safety and energy saving
- 1.5 L water tank, up to 2 hours of ironing
- Saving energy with ECO mode
- Lock your iron securely to the base station
- 99% calc-free with PureSteam Anti-scale cartridge
- The most compact and lightest steam generator
- Steam boost up to 240 g
- Our best gliding soleplate

Highlights

OptimalTEMP technology

"Now you can iron from jeans to silk with no temperature setting required. Guaranteed no burn on all ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust temperature 2) Compact ProVelocity steam engine delivers more steam for ironing faster. It enables compact design of your steam generator for easier storage"

Steam boost up to 240 g

The steam boost can be used for vertical steaming and tough creases.

Energy saving

By using the ECO mode, with reduced amount of steam, you can save energy without compromising on the ironing results. For faster ironing, switch to Turbo mode, which generates more steam.

Max 5 bar pump pressure

The more steam, the faster the ironing. Consistent powerful steam is generated which penetrates deep inside the garments making ironing faster and better. Steam power can be regulated to fit your needs.

Refill tap water any time

Your steam generator iron is designed to use tap water. While ironing, when you run out of water in the watertank, you can refill it easily without waiting or turning your appliance off.

Safety carry lock

Your steam generator iron comes with a safety carry lock. You can lock your iron safely on the base, making it safer, reducing the risk of people touching the hot soleplate. You can also carry the steam generator easily.

Safe rest

The Philips innovative OptimalTEMP technology guarantees no burn on all ironable fabrics. During ironing, no need to put your iron back to the base station, just leave the hot iron soleplate directly on the garments or cotton ironing board cover without additional resting accessory. It will not damage any of your ironable garments, neither the board. This makes your ironing easier with less wrist efforts.
