Simple steps for healthy baby meals

Prepare nutritious baby meals in 3 simple steps: steam, blend, serve. Circular steam technology cooks evenly, retaining goodness, texture and liquids for quick, simple blending. The smart design means fewer steps, for easy use and cleaning.

Healthy steaming

- Unique way of steaming to cook healthily

Meal times in simple steps

- Fewer steps for easy blending
- Large water tank opening for easy cleaning
- From puree to chunky bites, suitable for every weaning stage
- Simply steam, blend & serve healthy baby meals

Highlights

Unique steam technology

Steaming is a healthy way of cooking. Our circular steam technology lets the steam circulate upwards from the bottom, making sure all the ingredients are evenly cooked without boiling. Goodness, texture and cooking liquids are retained for blending.

Simple steps to baby meals

This baby food maker combines steaming and blending, making it easy to prepare and serve baby meals. Start by steaming the ingredients then simply blend to the desired consistency and serve.

Food for every weaning stage

From very finely blended fruit and vegetables to combining ingredients such as meat, fish and pulses through to creating chunkier

textures, this baby food maker makes healthy food preparation simple for every weaning stage.

Easy to blend

This smart jar lid design keeps all the ingredients inside the jar, preventing food from getting into the water tank. Blending is made easy, with less steps from steaming to blending.

Easy to clean

The baby food maker's extra large water tank opening is easy to clean and refill, allowing you to cook with clean steam, every time. It is also dishwasher-safe (jar, jar lid and blade).

Specifications

Country of origin

China

Weight and dimensions

Product dimensions: 280 W x 204 H x 148

D mm

Product weight: 1.44 kg

Development stages

Stage: 1 year +, 6 - 12 months, 6 months +

Technical specifications

Voltage: 220-240 V

Cord length: 80 m

Power: 330 W

Frequency: 50-60 Hz

Safety: Jar lock switch for safe usage

Weight and dimensions

F-box dimensions: 300 W x 260 H x 210
