PHILIPS

Saeco, a Philips brand

 **Saeco**

Highlights

Auto cleaning and de-scaling

Easy to use and easy maintenance: Thanks to the automatic cleaning and descaling cycles, you are guaranteed perfect enjoyment every day and maximum longevity for your automatic espresso machine.

Cup warmer

This feature allows you to not only store your espresso cups and glasses right on the espresso machine, it also pre-heats them letting the aroma unfold even better and guaranteeing a long-lasting crema

Ergonomy

Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box

or the drip tray, all compartments are directly accessible.

Milk Island

Immediate preparation of a creamy froth.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Coffee Customisation

With Saeco you can always easily select the coffee length, intensity, temperature and strength you prefer. Your personal settings are memorised, so you can enjoy your favourite coffee at the touch of a button.

SBS (Saeco Brewing System)

The Philips Saeco automatic espresso machine exclusively allows you to adjust your espresso's intensity, altering the crema and body structure as it is dispensed. Simply by turning the knob you can prepare the crema exactly according to your taste. A little knob that makes a big difference.

Tip Ring

Tip Ring with digital display interface

Touch lift

Patented electronically adjustable drip tray to fit every cup size
