| Problem | Possible cause | Solution |
|---|--|---|
| The appliance does not work when I push the button. | The battery light flashes fast because the batteries are low. | To charge the batteries, insert the small plug into the socket on the appliance and insert the adapter into a wall socket. |
| | You cannot use the appliance because the appliance is still charging. | You have to remove the small plug from the socket on the appliance before you can switch on the appliance. |
| | You have to press two buttons. | First press the on/off button to switch on the appliance. Then press the MAX button to get maximum suction power. |
| The appliance has a lower suction power than usual. | The filter and the cyclone are dirty. | Clean the filter and the cyclone. |

| Dust escapes from the appliance. | The filter is dirty. | Clean the filter. |
| The brush does not turn anymore. | The brush encounters too much resistance. | Clean the brush with a pair of scissors or by hand. If you clean the roller brush by hand, pull the hairs or threads from the widest side to the narrowest side of the roller brush (see user manual). |

| | The mini turbo brush is not fully closed. | Make sure that the top and bottom parts of the mini turbo brush are properly connected and there is no gap between the two parts. Check if the locking ring is in closed position (see user manual). |
| | The connector between the mini turbo brush and the appliance is not placed properly. | Make sure that the connector is pushed into the mini turbo brush as far as it goes. |
| FC6172, FC6169: I cannot connect the mini turbo brush to the appliance. | The connector between the mini turbo brush and the appliance is not present. | You can remove the connector from the mini turbo brush, for instance for thorough cleaning, but you cannot connect the mini turbo brush directly to the appliance without the connector. To reassemble the mini turbo brush, first push the connector into the mini turbo brush as far as it goes and then push the connector into the nozzle of the handheld vacuum cleaner. |
