Highlights

Blue LED light & pilot light

This kettle has blue LED illumination inside, making the boiling process more enjoyable and soothing.

Transparent water level window

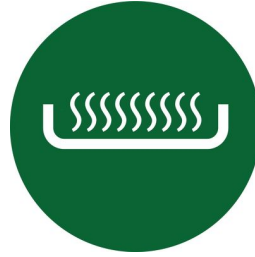

The transparent water level indicator can be read from both sides. The blue illumination indicates when the kettle is switched on.

Cordless 360° pirouette base

Cordless 360° pirouette base for easy lifting and placing.

Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.

Robust metal kettle

Robust metal kettle made of brushed stainless steel (body, lid, and spout) for long lasting lifetime.

Micro-mesh filter

The removable micro-mesh filter on the spout restrains all scale particles with size > 200 micron and ensures that the water you put into your cup is clean.

Multiple safety system

The kettle shuts off automatically when the water is ready, when it is lifted from the base or when there is too little water.

Food contact safe material

This kettle is made of food contact safe stainless steel for your clean cup of water.

Stainless steel spring lid

Spring opening lid is made of stainless steel and opens effortlessly at the touch of a button, whilst avoiding steam contact.

Metal wrapped power base

Metal wrapped base to offer full stainless steel experience.
