- Detachable 1.6 l water tank
- Heat-resistant mat: to safely place your hot iron on

Easy set-up and storage

- Ready to use in 2 minutes with unlimited refill
- Lock your iron securely to the base station
- Integrated cord and hose storage compartment

PHILIPS

Highlights

Up to 5 bar pressure

5 bar

The more steam, the faster the ironing. Consistent powerful steam is generated which penetrates deep inside the garments making ironing both faster and better. Steam power can be regulated to suit your needs.

Steam boost up to 160 g

The steam boost can be used for vertical steaming and tough creases.

Detachable 1.6 l water tank

A large water tank capacity enables you to iron with steam without having to refill. The tank can hold a

large amount of water so you can iron for up to 3 hours uninterrupted. Being detachable, you can easily re-fill the tank any time. It gives you endless, powerful steam.

Iron resting mat

To improve comfort during ironing you can place the iron anywhere with the heat resistant iron resting mat. As you do not need to put the iron on its heel during intervals, you decrease the straining of your wrist. The resting mat is highly heat resistant, even when a soleplate heated to 250 °C is placed on it.

Safety carry lock

Your steam generator iron comes with a safety carry lock. You can lock your iron safely on the base, making it safer and reducing the risk of people touching the hot soleplate. You can also carry the steam generator easily.

Specifications

Accessories

- Included in pack: Heat resistant iron resting mat

Comfortable ironing

- Anti-scale management: Easy Rinse
- Cord length: 1.8 m
- Ergonomic iron design: Ergonomically designed iron for comfortable ironing
- Hose length: 1.9 m
