Cleans beyond dust.

Vacuum and wet wipe in one go.

Vacuum cleaning alone is not enough to remove all dirt types. Philips Cordless Stick 8000 Series Aqua can clean beyond dust. The specially designed 2-in-1 nozzle vacuums & wet wipes to remove sticky spots and even bacteria.

More hygienic Vacuum & Wet wipe nozzle

- · Vacuums and wipes dust, dirt and stains in one go
- You can add detergent to capture up to 99% of bacteria $\!\!\!^*$
- · Always Clean coating protects cloth from bacteria growth*

Full house cleaning with maximum power

- Longest lasting turbo mode, more than 125m² on one charge
- Lithium-ion battery lasts up to 80 minutes
- 360° suction nozzle captures up to 99.7% of dust and dirt*
- 360° suction nozzle reveals hidden dust with LEDs lights

Uninterrupted, effective cleaning

- PowerCyclone 10 maintains stronger performance for longer
- PowerBlade digital motor, easily controlled by Smart Display
- · Integrated crevice tool and brush, plus extra accessories
- Full reach everywhere, even under low furniture

Cordless Vacuum xc8147/01

Highlights

Unique Aqua nozzle

Your floors are completely clean only after you do a final wet wipe after you vacuum. This requires effort and time, and more than one tools. What if you could do both jobs at the same time, with a cordless and agile stick? The Unique Aqua nozzle does not only vacuum, but it wipes dust, dirt and stains in one go.

Remove up to 99% of bacteria*

You can even add your favourite detergent in the water tank to remove up to 99% of bacteria.

Anti bacterial cloths

The new Always Clean coating protects cloth from bacteria growth after the cleaning session! In this way it will be easier to take care of your pads.

Turbo Runtime

If you want to have the best performance, you will always use your cleaning device in the MAX setting. In a cordless vacuum cleaner, it is not always possible, since the runtime in TURBO will run out fast. What if you could have a cordless vacuum cleaner that will last enough to cover your full house? Thanks to the longest MAX* performance runtime in any stick, with the newest generation lithium-ion batteries, you can clean more than 125m² on a single charge.

Up to 80 min runtime

Different needs require different options. Our durable and long-lasting 25.2V lithium ion batteries will give you up to 80 minutes cleaning time in eco mode, 35 minutes in normal mode and 28 minutes in turbo mode, before you need to recharge.

360° suction nozzle

When you clean, you always want to be sure that everything that is on the floor will be picked up by your device in one go, without

passing on the same surface more than once. The universal 360° suction nozzle captures up to 99,7% of dust & dirt in each stroke, leaving nothing on the floor! Thanks to its patented 360° suction technology, it picks up more dust & dirt from all sides of the nozzle, making all your movements count!

LED Nozzle

What if we told you that your floor is full of hidden dust and dirt? Most of the dirt on the floor is not visible with the human eyes. Now, dust, fluff, hair, and crumbs are easy to spot and capture, due to the LED lights in the nozzle. LEDs in the nozzle reveal hidden dust and dirt, to help you cleaning everywhere at any moment.

PowerCyclone 10

Philips PowerCyclone 10 is our latest bagless technology, now incorporated in a cordless vacuum cleaner. PowerCyclone 10 will maintain stronger suction for longer, with 30% higher efficiency.
