## Blend simply and smoothly in seconds

### Smooth and effortless everyday blending

The Philips Hand Blender Series 3000 features a mighty 400W motor and ProMix advanced blending technology to quickly blend your favorite ingredients; from soups and smoothies, to purees and dips. All with a lightweight, ergonomic design.

#### **Strong performance**

- Robust 400W motor
- ProMix advanced blending technology

#### **Minimal hassle**

- Anti-splash design keeps mess to a minimum
- Slip-free ergonomic grip
- Easy to clean under the tap
- Compact size to store away neatly

#### **Ergonomic design**

- Lightweight and slim for easy handling
- Transparent mixing tumbler

# Highlights

## 400W motor

With a strong 400W motor, you can power through your daily blending tasks for effortlessly smooth results.

## ProMix Technology

Developed together with the prestigious Stuttgart University, Philips ProMix is a unique and advanced blending technology. With a triangular-shaped blade design that creates optimal food flow as you blend, ensuring consistent and fast blending, time after time.

## Anti-splash design

The specially designed blade guard features a closed cage around it to keep mess to a minimum and protect you from any splash-back while you're blending.

## Ergonomic grip

The strong grip of the hand blender has been specially designed to enable superior comfort and control. The ergonomic grip prevents slippage and minimizes any stress or tension on your hands while you're using it.

## Lightweight and slim design

The lightweight and slim design works in unison with the ergonomic grip to make the blender super easy and comfortable to handle.

## Transparent tumbler

The transparent mixing tumbler is the perfect partner for your hand blender, with scaled measurements to help get your required ingredient quantities just right. The tumbler can be used for hot or cold food.

## Easy cleaning

The blending bar is easy to clean by simply rinsing it under running water.

## Compact storage

Thanks to its compact size, the hand blender can be neatly stored in a kitchen drawer, no need to keep it out on the counter top.

# Specifications

## General specifications
